INTRO

- What is an nHanced Portal?
- What are the alternatives?
- When to use an nHanced Portal?

WHAT IS AN ENHANCED PORTAL?

- A web front-end built on top of a NAV/BC database using a technology framework for rapid development
- A mechanism by which NAV / BC data is transposed into web screens and web visitor actions are transposed into NAV / BC actions

WHAT ARE THE ALTERNATIVES?

- Sana Commerce
 - for transactional B2B & B2C online shops with rich content management and extensive eCommerce features
- nHanced eComm
 - for interfacing between other web front-end solutions and NAV / BC
- Custom Solutions
 - e.g. publishing NAV / BC Pages and/or codeunits as web services
- PowerApp Portals
 - for building portals on the Common Data Service (CDS)
